	Nome: Rodrigo Iglesias Nieto

Tarefas programadas II

	14. Realiza os seguintes exercicios
	a) Programa a seguinte tarefa baixo o usuario master para que se execute o 10 de xuño ás 08:30 AM
	#!/bin/bash
	ps -aux > /tmp/ps.txt

Resposta

```
Router [Corriendo] - Oracle VM VirtualBox

Archivo   Máquina   Ver   Entrada   Dispositivos   Ayuda

master@router:~$ crontab -l
# Edit this file to introduce tasks to be run by cron.
#
# Each task to run has to be defined through a single line
# indicating with different fields when the task will be run
# and what command to run for the task
#
# To define the time you can provide concrete values for
# minute (m), hour (h), day of month (dom), month (mon),
# and day of week (dow) or use '*' in these fields (for 'any').
#
# Notice that tasks will be started based on the cron's system
# daemon's notion of time and timezones.
#
# Output of the crontab jobs (including errors) is sent through
# email to the user the crontab file belongs to (unless redirected).
#
# For example, you can run a backup of all your user accounts
# at 5 a.m every week with:
# 0 5 * * 1 tar -zcf /var/backups/home.tgz /home/
#
# For more information see the manual pages of crontab(5) and cron(8)
#
# m h  dom mon dow   command
30 8 10 6 * /home/master/script.sh
master@router:~$ _
```

COMPRBACION

```
# m h  dom mon dow   command
30 8 10 6 * /home/master/script.sh
57 15 * * * /home/master/script.sh
```

VEMOS QUE SE HA EJECUTADO, YA QUE HA CREADO EL DIRECTORIO

```
Router [Corriendo] - Oracle VM VirtualBox

Archivo   Máquina   Ver   Entrada   Dispositivos   Ayuda

master@router:~$ cat /tmp/
.font-unix/
.ICE-unix/
ps.txt
systemd-private-545662f318754cadbdb6dc9b822
systemd-private-545662f318754cadbdb6dc9b822
.Test-unix/
.X11-unix/
.XIM-unix/
master@router:~$ cat /tmp/_
```

Ahora borramos esta prueba para dejar el deseado.

Para borrar editamos el crontab y borramos la tarea y tambien podemos borrar el directorio en tmp con el comando rm
